Subject index*

A

Acceleration, paradoxical, of atrial flutter after cardioversion (Shalan and Lyon), 684
Acid, ethacrynic, as diuretic (Sperber et al.), 281
Acid-base balance, review of current approaches and techniques (Austin), 691
Action potential, diaphragmatic, electrocardiographic recording of (Deliyiannis and Salama), 497
Adams-Stokes attacks due to asystole or complete heart block complicating acute myocardial infarction, treatment of, with catheter electrode pacing (Bruce et al.), 460
Adrenal tumor, hypokalemic alkalosis with (Collyns and MacQuaide), 258
Adrenergic blocking drugs, beta, hypotension from (Prichard), 716 (Annot.)
Aging, changes with, in amino acid composition of aortic elastin (FitzPatrick and Hospelhorn), 211
Alcohol and heart (Heggtveit), 422 (Annot.)
Alcoholic cardiomyopathy, electron microscopic study (Hibbs et al.), 766
histochemical study (Ferrans et al.), 748
probable, virus-like particles in heart of patient with, electron microscopic and histochemical study (Hibbs et al.), 327
Alcoholics, chronic, brisk electrocardiogram in (Levine et al.), 140 (Annot.)
Aldosterone, excretion of, in dogs with spontaneous heart failure (Bojs and Conn), 72
Alkalosis, hypokalemic, with adrenal tumor (Conn's syndrome), case report (Collyns and MacQuaide), 258
Alpha-methyldopa, effects of, on digital circulation in hypertension (Mendlowitz et al.), 731
Alterations, QRS, unusual, seen in continuous Electrocardiocorder recordings, instances associated with myocarditis, bundle branch block, and angina pectoris (Gilson et al.), 41
Altitude (hypoxia), effect of, on coronary artery size in white rat (Kerr et al.), 841 (Annot.)
Amino acid composition of aortic elastin, changes in, with aging and atherosclerosis (FitzPatrick and Hospelhorn), 211
Amour, mort d' (Heggtveit), 287 (Annot.)
Analgesics, narcotic, cardiovascular actions of (Elliott and Abdel-Rahman), 567
Angeborene Herzfehler. Auskultation, Phonokardiographie und Differentialdiagnose, 432 (B. Rev.)
Angiitis and periangiitis due to Butazolidin, simulating Aschoff nodule (Edelstein), 573 (Annot.)
Angina pectoris, unusual QRS alterations seen in continuous Electrocardiocorder recordings in instances of (Gilson et al.), 41
Angiocardiography, simple method for recording radiopaque dilution curves during (Heintzen), 720 (Annot.)
Angiography, effect of concentrated contrast media during, on plasma volume and plasma osmolality (Iseri et al.), 154
pressure-injection, using Seldinger percutaneous technique, closed-end catheter for (Rawls et al.), 68
progress in, 145 (B. Rev.)
pulmonary, in detection of pulmonary embolic disease (Littmann), 569 (Annot.)
Angiotensin, effects of, on circulation and myocardial metabolism of dogs with experimentally produced myocardial infarction (Ribeilima), 637
pressor responsiveness to, effect of acute administration of chlorothiazide upon (Silah et al.), 301
Announcements, 146, 288, 432, 576, 724, 846
Anomalies, congenital, of pulmonary arteries (Battifora et al.), 810(CPC)
Anomalous origin of left coronary artery from pulmonary artery (Van der Hauwaert et al.), 538
Antiarrhythmic drugs. Clinical use of quinidine (Lyon and DeGraff), 834
Mechanism of quinidine action (Lyon and DeGraff), 713
Antihypertensive effects of guanethidine and of alpha-methyldopa, study on digital circulation (Mendlowitz et al.), 731
Aorta, thoracic, coarctation of, measurement of transverse cardiac diameter and aortic parameters in adult patients with (Gustafson and Friedenberg), 479
Aortic elastin, amino acid composition of, changes in, with aging and atherosclerosis (FitzPatrick and Hospelhorn), 211
insufficiency, ventricular septal defect associated with, study of (Halloran et al.), 320
parameters, statistical analysis of, evaluation of left heart disease by (Gustafson and Friedenberg), 479
stenosis, fixed-orifice, use of Valsalva maneuver to differentiate, from muscular subaortic stenosis (Marcus and Jones), 473
masking of, by mitral stenosis (Zitnik et al.), 22
valve stenosis or insufficiency, measurement of transverse cardiac diameter and aortic parameters in adult patients with (Gustafson and Friedenberg), 479

*January, pp. 1-146; February, pp. 147-288; March, pp. 289-432; April, pp. 433-576; May, pp. 577-724; June, pp. 725-868.

Aortic valve stenosis—Cont'd
direct brachial arterial pulse-pressure curve in evaluation of patients with (Delman et al.), 582
Arborization block, experimental, in dogs, electrocardiographic findings associated with (Watt and Pruitt), 642
Arm versus forearm blood pressure in obesity (Blackburn et al), 423 (Annot.)
Arrest, cardiac, during acute myocardial infarction, closed-chest resuscitation after (Nachlas and Miller), 448
resuscitation from, in acute myocardial infarction, survival after (Robinson et al.), 740
Arrhythmias associated with Wolff-Parkinson-White syndrome (Chung et al.), 122
Arterial bruit, supraclavicular (Fowler and Marshall), 410
hypertension, clinical studies of triamterene in (Morin et al.), 195
pulmonary (secondary) (Battifora et al.), 810 (CPC)
occlusions, acute and chronic, surgical treatment of (in German), 724 (B. Rev.)
pulse-pressure curve, brachial, direct, in evaluation of patients with aortic valvular stenosis (Delman et al.), 582
Arteries and heart, diseases of, 723 (B. Rev.)
pulmonary, coarctation of (Battifora et al.), 810 (CPC)
congenital anomalies of (Battifora et al.), 810 (CPC)
stenosis of (Battifora et al.), 810 (CPC)
Arteriography of obliterative coronary artery disease, 723 (B. Rev.)
Arteriosclerosis, pulmonary (secondary) (Battifora et al.), 810 (CPC)
Arteriosklerose, über den Wert retinaler Gefässeveränderungen in der Diagnostik der, 576 (B. Rev.)
Artery, carotid, internal, blood flow in, effect of 50 per cent sodium diatrizoate (Hypaque) on (Tindall et al.), 215
coronary, disease, obliterative, arteriography, microanatomy, and pathogenesis of, 723 (B. Rev.)
occlusive, measurement of transverse cardiac diameter and aortic parameters in adult patients with (Gustafson and Friedenberg), 479
effect of altitude (hypoxia) on size of, in white rat (Kerr et al.), 841 (Annot.)
left, anomalous origin of, from pulmonary artery (Van der Hauwaert et al.), 538
pulmonary, anomalous origin of left coronary artery from (Van der Hauwaert et al.), 538
lesions of, associated with accelerated course of Marfan's syndrome in childhood (Bowden et al.), 96
renal, stenosis, experimental, radioisotope renogram in dogs with (Wisenbaugh et al.), 655
Aschoff nodule, Butazolidin angiitis and periangiitis simulating (Edelstein), 573 (Annot.)
Asynergy, cardiac, probable mechanisms of (Table II) (Harrison), 107
Asystole, treatment of, during acute myocardial infarction with electrode catheter pacing (Bruce et al.), 460
Atherosclerosis, changes with, in amino acid composition of aortic elastin (Fitz-Patrick and Hospelhorn), 211
Atrial flutter, paradoxical acceleration of, after cardioversion (Shalan and Lyon), 684
pressure, right, and square wave response to Valsalva maneuver, effect of l-norepinephrine on (O'Neill and Cudkowicz), 220
septal defect, congenital, traumatic rupture of right papillary muscle in patient with (Aleksandrow et al.), 686
Auskultation und Perkussion, Lehrbuch der, 723 (B. Rev.)
Autoradiography, observations on localization of tritiated digoxin in myocardial cells by (Fozzard and Smith), 245
Autoregulation of blood flow, proceedings of international symposium, 576 (B. Rev.)
Average transient computing, method for extracting cardiographic signals from noisy records (Rautaharju and Blackburn), 515
AVSEP: Audio-Visual Superimposed Electrocardiographic Presentation, observations of unusual QRS alterations in continuous recordings with (Gilson et al.), 41
Axis deviation, left, children with, and no apparent heart disease, vectorcardiogram in (Gup et al.), 619

B

Bacteremia, gram-negative, and myocardial infarction, producing prolonged shock, with leukemoid reaction (Watts), 253
Beriberi heart disease, physiologic data and difficulties in diagnosis (Wagner), 200
Beta adrenergic blocking drugs, hypotension from (Prichard), 716 (Annot.)
Block, arborization, experimental, electrocardiographic findings associated with (Watt and Pruitt), 642
bundle branch, unusual QRS alterations seen in continuous Electrocardiocorder recordings in instances of (Gilson et al.), 41
heart, competitive idiocardiac and extrinsic pacemaker stimuli in (Zucker et al.), 62
complete, digital rheoplethysmogram in (DePasquale and Burch), 487
with and without heart failure in human beings, role of bradycardia in retention of sodium and water in (Friedberg et al.), 293
treatment of, during acute myocardial infarction with electrode catheter pacing (Bruce et al.), 460
peri-infarction: Postmyocardial-infarction intraventricular conduction disturbance (Corne et al.), 150
Blocking drugs, beta adrenergic, hypotension from (Prichard), 716 (Annot.)
Blood flow, autoregulation of, proceedings of international symposium, 576 (B. Rev.)
coronary, left ventricular, measurement of endocardial distribution of, by Rb^{86} chloride (Moir and DeBra), 795

Blood flow—Cont'd
in internal carotid artery of man, effect of 50 per cent sodium diatrizoate (Hypaque) on (Tindall et al.), 215
pulsatile, 576 (B. Rev.)
pressure, arm versus forearm, in obesity (Blackburn et al.), 423 (Annot.)
and toxemia of pregnancy, 432 (B. Rev.)
volume, physiologic and clinical aspects (Scholer), 701
Blunt chest trauma, constrictive pericarditis after (Goldstein and Yu), 544
Body distribution of sodium, potassium, and water in dogs with spontaneous heart failure (Bojs and Conn), 72
Brachial arterial pulse-pressure curve, direct, in evaluation of patients with aortic stenosis (Delman et al.), 582
Bradycardia, role of, in retention of sodium and water in complete heart block with and without failure in human beings (Friedberg et al.), 293
Bruit, arterial, supraclavicular (Fowler and Marshall), 410
Bundle branch block, unusual QRS alterations seen in continuous Electrocardiocorder recordings in instances of (Gilson et al.), 41
left, transection of rami of, distal to point of arborization of main bundle, electrocardiographic findings associated with (Watt and Pruitt), 642
Butazolidin angiitis and periangiitis simulating Aschoff nodule (Edelstein), 573 (Annot.)

C

C3H mice infected with Trypanosoma cruzi, effect of muscular activity upon acute myocarditis of (Elson and Abelmann), 629
Calcium, ionizable, serum, reduction in, induced by EDTA, antagonism of contractile effects of deslanoside by (Cohen et al.), 502
Campo elettrico cardiaco, 845 (B. Rev.)
Cannulation, lymphatic, improved technique (Patterson and Ray), 229
Cardiac arrest, resuscitation from, in acute myocardial infarction, survival after (Robinson et al.), 740
asynergy, probable mechanisms of (Table II) (Harrison), 107
chronic, I am, 432 (B. Rev.)
diameter, transverse, statistical analysis of, evaluation of left heart disease by (Gustafson and Friedenberg), 479
dilatation, mechanisms and effects of (Harrison), 102
disease, restrictive, pathologic physiology and clinical features (Shabetai et al.), 271
index, critique of, and introduction of more rational index of cardiac performance (Defares), 571 (Annot.)
metabolism, effect of some physiologic, pharmacologic, and pathologic influences (Opie), 401
necrosis induced by corticosteroid-electrolyte-stress, effect of nicotine on (Wenzel and Stark), 780
pacing during acute myocardial infarction, comparative clinical experience with (Table III) (Bruce et al.), 468
Cardiac—Cont'd
performance, more rational index of (Defares), 571 (Annot.)
resuscitation, closed-chest, in patients with acute myocardial infarction (Nachlas and Miller), 448
precordial percussion in (Don Michael), 721 (Annot.)
sarcoidosis, myocardial degeneration in, histochemical and electron microscopic studies (Ferrans et al.), 159
Cardioactive plasma substances (Lowe and Nayler), 1
Cardiogenic shock, experimental, hemodynamic effects of rapid digitalization in (Cronin and Zsotér), 233
Cardiograms, noisy, analysis of, with small computer (Rautaharju and Blackburn), 515
Cardiology, necessity for effective dental health service in (Bass), 718 (Annot.)
preventive, first international conference on, August 24-28, 1964, summary of (Raab), 427
Cardiomegaly, pericardial fat simulating (James and Torrance), 93
Cardiomyopathies, primary and secondary, histochemical differential diagnosis between (Bajusz and Jasmin), 83
Cardiomyopathy, alcoholic, electron microscopic study (Hibbs et al.), 766
histochemical study (Ferrans et al.), 748
obstructive, hypertrophic (Krasnow), 820
virus-like particles in heart of patient with, electron microscopic and histochemical study (Hibbs et al.), 327
Cardiopatie congenite, elettrocardiogramma nelle, 575 (B. Rev.)
Cardiopulmonary hemodynamics in health and disease, 576 (B. Rev.)
Cardiovascular actions of narcotic analgesics (Elliott and Abdel-Rahman), 567
changes in tropical eosinophilia (Johny and Ananthachari), 591
description, precision in, plea for (Hyman and Perl), 843 (Annot.)
disease, hypertensive, measurement of transverse cardiac diameter and aortic parameters in adult patients with (Gustafson and Friedenberg), 479
yearbook of (1963-1964 series), 145 (B. Rev.)
findings in healthy children (Leatham), 139 (Annot.)
Cardioversion, paradoxical acceleration of atrial flutter after (Shalan and Lyon), 684
Carotid artery, internal, blood flow in, effect of 50 per cent sodium diatrizoate (Hypaque) on (Tindall et al.), 215
Catheter, closed-end, for angiography using percutaneous technique (Rawls et al.), 68
electrode, pacing, treatment with, of asystole or heart block during acute myocardial infarction (Bruce et al.), 460
Catheterizations of right side of heart, 4,413, complications in (Wennevold et al.), 173
Cell fractionation, sarcotubular system studied by (Fozzard and Smith), 245

Cells, myocardial, localization of tritiated digoxin in, observations on, by autoradiography and ultramicroscopy (Fozzard and Smith), 245
Cerebral embolism (Russell), 142 (Annot.)
Chagasic myocarditis, experimental, in C3H mice, effect of muscular activity upon (Elson and Abelmann), 629
Chest trauma, blunt, constrictive pericarditis after (Goldstein and Yu), 544
Childhood, Marfan's syndrome in, accelerated course of, associated with lesions of mitral valve and pulmonary artery (Bowden et al.), 96
Children, healthy, cardiovascular findings in (Leatham), 139 (Annot.)
with left axis deviation and no apparent heart disease, vectorcardiogram in (Gup et al.), 619
Chirurgische Behandlung der akuten und chronischen arteriellen Verschlüsse, 724 (B. Rev.)
Chlorothiazide, effect of acute administration of, upon pressor responsiveness to angiotensin and norepinephrine (Silah et al.), 301
Cholesterol, serum, elevation of, after administration of nicotine (Kershbaum et al.), 206
Chronic alcoholics, brisk electrocardiogram in (Levine et al.), 140 (Annot.)
Cineangiocardiography in hemorrhagic shock (Martin et al.), 283 (Annot.)
Circulation, digital, effects of guanethidine and of alpha-methyldopa on, in hypertension (Mendlowitz et al.), 731
in patients with complete heart block, studied by rheoplethysmogram (DePasquale and Burch), 487
dispersion of indicator in (Bassingthwaighte and Warner), 838 (Annot.)
effects of angiotensin on, of dogs with experimentally produced myocardial infarction (Ribeilima), 637
Circulatory index of cardiac performance (Defares), 571 (Annot.)
and ventilatory responses to postprandial exercise (Jones et al.), 668
Clinical interpretation of electrocardiogram by means of electronic computers (Levine), 147
pathologic conference (Battifora et al.), 810 (Krakower and Cotsonas), 263 (Speckhals et al.), 551
protocols of dogs with spontaneous heart failure (Appendix) (Bojs and Conn), 80
Closed-chest cardiac resuscitation in patients with acute myocardial infarction (Nachlas and Miller), 448
Coarctation of pulmonary arteries (Battifora et al.), 810 (CPC)
of thoracic aorta, measurement of transverse cardiac diameter and aortic parameters in adult patients with (Gustafson and Friedenberg), 479
Coitus, stress of, acute coronary insufficiency precipitated by (Heggtveit), 287 (Annot.)
Competitive idiocardiac and extrinsic pacemaker stimuli in heart block (Zucker et al.), 62
Complete heart block in man, digital rheoplethysmogram in (DePasquale and Burch), 487
Complete—Cont'd
transposition of great vessels (Calleja et al.), 33
Complications in 4,413 catheterizations of right side of heart (Wennevold et al.), 173
Computers, electronic, clinical interpretation of electrocardiogram by means of (Levine), 147
Computing, average transient, method for extracting cardiographic signals from noisy records (Rautaharju and Blackburn), 515
Conduction disturbance, intraventricular, postmyocardial-infarction; peri-infarction block (Corne et al.), 150
Congenital anomalies of pulmonary arteries (Battifora et al.), 810 (CPC)
atrial septal defect, traumatic rupture of right papillary muscle in patient with (Aleksandrow et al.), 686
heart diseases, auscultation, phonocardiography, and differential diagnosis in (in German), 432 (B. Rev.)
pulmonary valvular insufficiency, second heart sound in (Jacoby et al.), 603
stenoses of pulmonary arteries (Battifora et al.), 810 (CPC)
Conn's syndrome or drug-induced hypokalemic alkalosis, case report (Collyns and MacQuaide), 258
Constrictive pericarditis after blunt chest trauma (Goldstein and Yu), 544
Contractile effect of digitalis, antagonism of, by EDTA in normal human ventricle (Cohen et al.), 502
and manifest tension, influence of ventricular size on relationship between (Burch et al.), 624
Contraction and filling, ventricular, overlapping of (Dressler and Rubin), 599
Contrast media, concentrated, effect of, during angiography, on plasma volume and plasma osmolality (Iseri et al.), 154
Cor pulmonale and emphysema, new criteria for electrocardiographic diagnosis of (Selvester and Rubin), 437
hypercapnia in, rationale and methods for combatting (Ferrer and Harvey), 419
Coronary artery disease, obliterative, arteriography, microanatomy, and pathogenesis of, 723 (B. Rev.)
occlusive, measurement of transverse cardiac diameter and aortic parameters in adult patients with (Gustafson and Friedenberg), 479
left, anomalous origin of, from pulmonary artery (Van der Hauwaert et al.), 538
size of, effect of altitude (hypoxia) on, in white rat (Kerr et al.), 841 (Annot.)
blood flow, ventricular, left, measurement of endocardial distribution of, by Rb^{86} chloride (Moir and DeBra), 795
heart disease, potential, method for detecting (Doan), 11
insufficiency, acute, precipitated by coitus (Heggtveit), 287 (Annot.)
Corticosteroid-electrolyte-stress, cardiac necrosis induced by, effect of nicotine on (Wenzel and Stark), 780

Council for High Blood Pressure Research, American Heart Association, Proceedings: Hypertension, Vol. XII. Blood pressure and toxemia of pregnancy, 432 (B. Rev.)
Countershock, direct-current, ventricular fibrillation as late complication of (Rothfeld et al.), 807
capacitor-stored, synchronized, electric, application of (cardioversion), paradoxical acceleration of atrial flutter after (Shalan and Lyon), 684
Current, injury, progressive, with metastatic tumor of heart (Harris et al.), 392
Curves, dilution, radiopaque, simple method for recording, during angiocardiography (Heintzen), 720 (Annot.)

D

Degeneration, myocardial, in cardiac sarcoidosis, histochemical and electron microscopic studies (Ferrans et al.), 159
Dehydration, electrocardiographic changes with, during daily work and acute exercise in permanent inhabitants of hot areas (Toor et al.), 181
Dental health service, effective, necessity for, in cardiology (Bass), 718 (Annot.)
Deslanoside, ejection time response to, effect of laboratory-induced hypocalcemia on (Cohen et al.), 502
Diabetes insipidus (Tuttle), 577
Diagnosis, differential, histochemical, between primary and secondary cardiomyopathies (Bajusz and Jasmin), 83
Diaphragmatic action potential, electrocardiographic recording of (Deliyiannis and Salama), 497
Digital circulation, effects of guanethidine and of alpha-methyldopa on, in hypertension (Mendlowitz et al.), 731
rheoplethysmogram in complete heart block in man (DePasquale and Burch), 487
Digitalis, antagonism of contractile effect of, by EDTA in normal human ventricle (Cohen et al.), 502
Digitalization, rapid, hemodynamic effects of, in experimental cardiogenic shock (Cronin and Zsotér), 233
Digoxin, tritiated, localization of, in myocardial cells, observations on, by autoradiography and ultramicroscopy (Fozzard and Smith), 245
Dilatation, cardiac, mechanisms and effects of (Harrison), 102
Dilution curves, radiopaque, simple method for recording, during angiocardiography (Heintzen), 720 (Annot.)
Direct-current countershock, ventricular fibrillation as late complication of (Rothfeld et al.), 807
Diseases of the heart and arteries, 723 (B. Rev.)
Dispersion of indicator in circulation (Bassingthwaighte and Warner), 838 (Annot.)
Disturbance, conduction, intraventricular, postmyocardial-infarction; peri-infarction block (Corne et al.), 150
Diuretic therapy with ethacrynic acid (Sperber et al.), 281
with triamterene (Sperber and DeGraff), 134
Diuretics, oral, combined with methyldopa in treatment of hypertension (Leonard et al.), 610
Dogs with spontaneous heart failure, clinical protocols of (Appendix) (Bojs and Conn), 80
Drug-induced hypokalemic alkalosis, Conn's syndrome or, case report (Collyns and MacQuaide), 258
Drugs, antiarrhythmic: quinidine, clinical use of (Lyon and DeGraff), 834
mechanism of action of (Lyon and DeGraff), 713
beta adrenergic blocking, hypotension from (Prichard), 716 (Annot.)

E

EDTA, antagonism of contractile effect of digitalis by, in normal human ventricle (Cohen et al.), 502
Ejection time, ventricular, left, response to deslanoside, effect of laboratory-induced hypocalcemia on (Cohen et al.), 502
Elastin, aortic, amino acid composition of, changes in, with aging and atherosclerosis (FitzPatrick and Hospelhorn), 211
Electric countershock, direct-current, capacitor-stored, synchronized, application of (cardioversion), paradoxical acceleration of atrial flutter after (Shalan and Lyon), 684
Electrical field of heart (in Italian), 845 (B. Rev.)
resistance, sodium concentration and, of renal tissue (Voudoukis and Nelson), 424 (Annot.)
Electrocardiocorder recordings, continuous, unusual QRS alterations seen in, in instances associated with myocarditis, bundle branch block, and angina pectoris (Gilson et al.), 41
Electrocardiogram, brisk, in chronic alcoholics (Levine et al.), 140 (Annot.)
clinical interpretation of, by means of electronic computers (Levine), 147
in complete transposition of great vessels (Calleja et al.), 31
exercise, experience in analysis of noisy cardiograms with small computer (Rautaharju and Blackburn), 515
Electrocardiographic changes during daily work and acute exercise in permanent inhabitants of hot areas (Toor et al.), 181
diagnosis of emphysema and cor pulmonale, new criteria for (Selvester and Rubin), 437
effects of experimental myocardial lesions (Abildskov and Boyle), 49
findings associated with experimental arborization block in dogs (Watt and Pruitt), 642

Scintiscans, renal, sensitivity of, to changes in renal arterial circulation in dogs with experimental renal artery stenosis (Wisenbaugh et al.), 655

Second heart sound in congenital pulmonary valvular insufficiency (Jacoby et al.), 603

Septal defect, atrial, congenital, traumatic rupture of right papillary muscle in patient with (Aleksandrow et al.), 686
ventricular, associated with aortic insufficiency, study of (Halloran et al.), 320
in infancy, hemodynamic study (Kidd et al.), 4
injury due to transection of rami of left bundle branch distal to point of arborization of main bundle, electrocardiographic findings associated with (Watt and Pruitt), 642

Serotonin-induced pulmonary venous spasm demonstrated by selective pulmonary phlebography (Parker et al.), 521

Serum cholesterol, elevation of, after administration of nicotine (Kershbaum et al.), 206
ionizable calcium, reduction in, induced by EDTA, antagonism of contractile effects of deslanoside by (Cohen et al.), 502

Sexual intercourse, acute coronary insufficiency precipitated by (Heggtveit), 287 (Annot.)

Shock, cardiogenic, experimental, hemodynamic effects of rapid digitalization in (Cronin and Zsotér), 233
hemorrhagic, cineangiocardiography in (Martin et al.), 283 (Annot.)
prolonged, due to myocardial infarction and gram-negative bacteremia, with leukemoid reaction (Watts), 253

Sodium concentration and electrical resistance of renal tissue (Voudoukis and Nelson), 424 (Annot.)
diatrizoate (Hypaque), 50 per cent, effect of, on blood flow in internal carotid artery of man (Tindall et al.), 215
distribution of, in body, in dogs with spontaneous heart failure (Bojs and Conn), 72
iodide, I^{131}-tagged, uptake of, by experimental myocardial infarcts in dogs (Dreyfuss et al.), 801
loading, exaggerated natriuresis during, in hypertensive states (Voudoukis and Caldwell), 570 (Annot.)
and water, retention of, role of bradycardia in, in complete heart block with and without heart failure in human beings (Friedberg et al.), 293

Spasm, pulmonary venous, serotonin-induced, demonstrated by selective pulmonary phlebography (Parker et al.), 521

Spatiocardiography, textbook and atlas, 724 (B. Rev.)

Spodick's criteria for diagnosis of pulmonary emphysema (Appendix) (Selvester and Rubin), 446

Sport, heart and, 145 (B. Rev.)

Square wave response to Valsalva maneuver, right atrial pressure and, effect of l-norepinephrine on (O'Neill and Cudkowicz), 220

Staining, enzyme, sarcotubular system studied by (Fozzard and Smith), 245

Starr-Edwards mitral valve prosthesis, phonocardiographic study of patients with (Hultgren and Hubis), 306

Statistical analysis of aortic parameters and transverse cardiac diameter, evaluation of left heart disease by (Gustafson and Friedenberg), 479

Stenoses, congenital, of pulmonary arteries (Battifora et al.), 810 (CPC)
intrapulmonary, of branches of pulmonary arteries (Battifora et al.), 810 (CPC)

Stenosis, aortic, fixed-orifice, use of Valsalva maneuver to differentiate, from muscular subaortic stenosis (Marcus and Jones), 473
masking of, by mitral stenosis (Zitnik et al.), 22
valve, measurement of transverse cardiac diameter and aortic parameters in adult patients with (Gustafson and Friedenberg), 479
valvular, direct brachial arterial pulse-pressure curve in evaluation of patients with (Delman et al.), 582
mitral, hemodynamic, electrocardiographic, vectorcardiographic, and phonocardiographic correlations in study of (Lee et al.), 559
muscular subaortic, use of Valsalva maneuver to differentiate fixed-orifice aortic stenosis from (Marcus and Jones), 473
of pulmonary valve due to malignant thymoma (Krakower and Cotsonas), 263 (CPC)
renal artery, experimental, radioisotope renogram in dogs with (Wisenbaugh et al.), 655

Steroid-salt-stress, myocardial necrosis induced by, effect of nicotine on (Wenzel and Stark), 780

Stimuli, pacemaker, competitive idiocardiac and extrinsic, in heart block (Zucker et al.), 62

Stokes-Adams disease, intractable, method of emergency management (Roe), 470

Subaortic stenosis, muscular, use of Valsalva maneuver to differentiate fixed-orifice aortic stenosis from (Marcus and Jones), 473

Supraclavicular arterial bruit (Fowler and Marshall), 410

Surfactant, pulmonary (Bondurant and Giammona), 433

Survival after resuscitation from cardiac arrest in acute myocardial infarction (Robinson et al.), 740

Syncope due to asystole or complete heart block complicating acute myocardial infarction, treatment of, with catheter electrode pacing (Bruce et al.), 460
Systemic hemodynamics in experimental pulmonary embolism (Vitolo et al.), 338

T

Tachycardias associated with Wolff-Parkinson-White syndrome, theory and mechanism of (Chung et al.), 117
Tension, contractile and manifest, influence of ventricular size on relationship between (Burch et al.), 624
Terminal rhythm of patients dying suddenly during convalescence from acute myocardial infarction (Nachlas and Miller), 451
Thoracic aorta, coarctation of, measurement of transverse cardiac diameter and aortic parameters in adult patients with (Gustafson and Friedenberg), 479
Thymoma, malignant, with involvement of pulmonary valve and infundibulum leading to stenosis (Krakower and Cotsonas), 263 (CPC)
Thyroxine, I^{131}-tagged, uptake of, by experimental myocardial infarcts in dogs (Dreyfuss et al.), 801
Tissue, renal, sodium concentration and electrical resistance of (Voudoukis and Nelson), 424 (Annot.)
Toxemia of pregnancy, blood pressure and, 432 (B. Rev.)
Transplantation, renal, experience in, 575 (B. Rev.)
Transposition, complete, of great vessels, electrocardiogram in (Calleja et al.), 33
Transverse cardiac diameter, statistical analysis of, evaluation of left heart disease by (Gustafson and Friedenberg), 479
Trauma, chest, blunt, constrictive pericarditis after (Goldstein and Yu), 544
Traumatic rupture of right papillary muscle in patient with congenital atrial septal defect (Aleksandrow et al.), 686
Triamterene in arterial hypertension, clinical studies (Morin et al.), 195
as diuretic (Sperber and DeGraff), 134
Triiodothyronine, I^{131}-tagged, uptake of, by experimental myocardial infarcts in dogs (Dreyfuss et al.), 801
Tritiated digoxin, localization of, in myocardial cells, observations on, by autoradiography and ultramicroscopy (Fozzard and Smith), 245
Tropical eosinophilia, cardiovascular changes in (Johny and Ananthachari), 591
Trypanosoma cruzi, C3H mice infected with, effects of muscular activity upon acute myocarditis of (Elson and Abelmann), 629
Tumor, adrenal, hypokalemic alkalosis with (Conn's syndrome), case report (Collyns and MacQuaide), 258
metastatic, of heart, progressive injury current with (Harris et al.), 392

U

Ultramicroscopy, observations on localization of tritiated digoxin in myocardial cells by (Fozzard and Smith), 245

V

Valsalva maneuver, square wave response to, effect of l-norepinephrine on right atrial pressure and (O'Neill and Cudkowicz), 220
use of, to differentiate fixed-orifice aortic stenosis from muscular subaortic stenosis (Marcus and Jones), 473
Valve, aortic, stenosis or insufficiency, measurement of transverse cardiac diameter and aortic parameters in adult patients with (Gustafson and Friedenberg), 479
mitral, lesions of, associated with accelerated course of Marfan's syndrome in childhood (Bowden et al.), 96
prosthesis, Starr-Edwards, phonocardiographic study of patients with (Hultgren and Hubis), 306
pulmonary, stenosis of, due to involvement by malignant thymoma (Krakower and Cotsonas), 263 (CPC)
Valvular insufficiency, pulmonary, congenital, second heart sound in (Jacoby et al), 603
stenosis, aortic, direct brachial arterial pulse-pressure curve in evaluation of patients with (Delman), 582
Vascular roentgenology, 576 (B. Rev.)
Vasopressin, lack of, in diabetes insipidus (Tuttle), 577
Vector, victims of (Langner), 284 (Annot.)
Vectorcardiogram in children with left axis deviation and no apparent heart disease (Gup et al.), 619
Vectorcardiographic findings in mitral stenosis (Lee et al.), 559
Vectorcardiography, misdiagnosis through indiscriminate use of (Langner), 284 (Annot.)
Venous spasm, pulmonary, serotonin-induced, demonstrated by selective pulmonary phlebography (Parker et al.), 521
Ventilatory and circulatory responses to postprandial exercise (Jones et al.), 668
Ventricle, left, external work and power of, in intact man, determination of (Snell and Luchsinger), 529
normal human, antagonism of contractile effect of digitalis by EDTA in (Cohen et al.), 502
right, of heart, myxoma of, successful removal of (Sakakibara et al.), 382
Ventricular fibrillation, late complication of direct-current countershock (Rothfeld et al.), 807
filling and contraction, overlapping of (Dressler and Rubin), 599
left, coronary blood flow, endocardial distribution of, measurement of, by Rb^{86} chloride (Moir and DeBra), 795
indicator-dilution output, effect of site of injection upon (Samet et al.), 241
septal defect associated with aortic insufficiency, study of (Halloran et al.), 320
in infancy, hemodynamic study (Kidd et al.), 4
size, influence of, on relationship between contractile and manifest tension (Burch et al.), 624
Verschlüsse, arteriellen, akuten und chronischen, chirurgische Behandlung der, 724 (B. Rev.)

Vessels, great, complete transposition of, electrocardiogram in (Calleja et al.), 33
Victims of vector (Langner), 284 (Annot.)
Virus-like particles in heart of patient with cardiomyopathy, electron microscopic and histochemical study (Hibbs et al.), 327
Volume, blood, physiologic and clinical aspects (Scholer), 701
plasma, effect of concentrated contrast media on, during angiography (Iseri et al.), 154

W

Water, distribution of, in body, in dogs with spontaneous heart failure (Bojs and Conn), 72
and sodium, retention of, role of bradycardia in, in complete heart block with and without heart failure in human beings (Friedberg et al.), 293
Wolff-Parkinson-White syndrome, effect of drugs and various procedures on (Chung et al.), 127
psychiatric disorders (mainly manic-depressive psychosis) in association with (Chung et al.), 130
theory and mechanism of (Chung et al.), 117
Work, daily, electrocardiographic changes during, in permanent inhabitants of hot areas (Toor et al.), 181
and power, external, of left ventricle in intact man, determination of (Snell and Luchsinger), 529

Y

Year book of cardiovascular and renal diseases (1963-1964 series), 145 (B. Rev.)

Pseudoventricular and ventricular arrhythmias appearing after D.C. countershock, significance (Castellanos et al.), 583
Psychogenic stimuli, response of peripheral circulation to, methods for studying in intact man (Burch and DePasquale), 411
Psychologic management of patients with cardiac disease (Harrison and Reeves), 136
Pulmonary arterial pressure, prolonged observation of (Vogel et al.), 429 (Annot.)
arteries, percutaneous subclavian catheterization of (Gulde et al.), 481
circulation, pressor action of l-norepinephrine and angiotensin on (Fowler and Holmes), 66
edema, acute, intravenous use of ethacrynic acid in management (Rosenberg et al.), 333
high-altitude (Singh), 435
embolic disease, 433 (B.Rev.)
emphysema with secondary polycythemia, acute and chronic effects of phlebotomy on general hemodynamics and pulmonary functions of patients with (Rakita et al.), 466
function and emphysema, outline of, 287 (B.Rev.)
vascular resistance, perivascular edema as factor in (West), 570 (Annot.)
venous responses to immersion hyperthermia and hypothermia (DePasquale et al.), 486
Pulse derivative, carotid, and force ballistocardiogram in judging incoordination of cardiac contraction (Ambrosi and Starr), 761
pressure and diastolic pressure, relationship to systolic pressure in healthy subjects, 20-94 years of age (Master and Lasser), 163
Pulse—Cont'd
venous, jugular, simplified method of recording (Colman), 160

Q

QRS complexes of scalar leads of SVEC-III, Frank, and axial VCG systems examined by computer analysis for characteristics of transformation between systems (Horan et al.), 365
loops in dorsal infarction, quantitative criteria for identification (Hoffman et al.), 295
Quinidine toxicity, manifestations and treatment (Lyon and DeGraff), 139
use with electrical reversion of cardiac arrhythmias, clinical problems (Paulk and Hurst), 253

R

Reducing agents, effects on indocyanine green dye (Cobb and Barnes), 145 (Annot.)
Re-entry of cardiac impulse, model for, inhomogeneous conduction in A-V node (Watanabe and Dreifus), 505
Reflexes, orienting and conditional, influence on peripheral circulation of intact man, methods for studying (Burch and DePasquale), 411
Renal blood flow determined by single injection of Hippuran-I^{131}, correlation with direct measurements of flow (Pritchard et al.), 789
circulation, effects of glyceryl trinitrate and pentaerythritol tetranitrate on (Frohlich et al.), 657
function estimated by endogenous creatinine clearance (Berlyne), 143 (Annot.)
Repolarization in left bundle branch block (Scott), 547
ventricular, in congenital aortic stenosis (Fowler), 603
Reserpine, metabolism and mode of action in hypertension (Mendlowitz et al.), 684
Resistance, forelimb, renal, mesenteric, and total peripheral, effects of glyceryl trinitrate and pentaerythritol tetranitrate on (Frohlich et al.), 657
pulmonary vascular, perivascular edema as factor in (West), 570 (Annot.)
Retinal disease, hypertensive, 578 (B.Rev.)
Reversion, electrical, of cardiac arrhythmias, clinical problems (Paulk and Hurst), 248
Rheoplethysmography, digital, method for studying influence of higher central nervous centers on peripheral circulation of intact man (Burch and DePasquale), 411
Rheumatic fever, diagnosis, management, and prevention, 724 (B.Rev.)
steroid therapy in, current status (Kuttner), 147
Rhythm, coronary sinus, experimental production in man (Lancaster et al.), 89
Roentgenkymograms of heart and great vessels, atlas, 434 (B.Rev.)
Ruptured papillary muscle after acute myocardial infarction (Robinson et al.), 233

S

Sarcoid involvement, massive, of heart (Krakower et al.), 526 (CPC)
Scalar electrocardiogram, criteria derived from, for assessing severity of congenital aortic stenosis in children (Fowler), 603

Schizotrypanum cruzi myocarditis, experimental, correlation between histopathologic and electrocardiographic findings (Anselmi et al.), 638
Second heart sound, paradoxical splitting, in Wolff-Parkinson-White syndrome (Zuberbuhler and Bauersfeld), 595
Septal defect, atrial, ultralow-frequency ballistocardiogram in; semiquantitative approach based on analysis of velocity curve (Elsbach and Rodrigo), 186
ventricular, in childhood, hemodynamics in (Kidd et al.), 732
depolarization in left bundle branch block, vectors of (Scott), 546
Septum, interventricular, infarction of, in left bundle branch block (Scott), 703
ventricular, intact, in case of double-outlet right ventricle associated with mitral stenosis and blind left ventricle (Ainger), 521
Serotonin, pressor action on pulmonary circulation (Fowler and Holmes), 66
Siblings, coarctation of aorta, mild (pseudocoarctation) and true, in (Keller and Cheitlin), 115
Sinus, carotid, pressure, in presence of left bundle branch block, effect (Scott), 822
reflexes (Tuckman et al.), 119
coronary, rhythm, experimental production in man (Lancaster et al.), 89
Sinusoids, myocardial, serving as outflow channel in infant with aortic atresia and premature closure of foramen ovale (Raghib et al.), 476
Sodium bisulfite, reducing effect on indocyanine green dye (Cobb and Barnes), 145 (Annot.)
Sounds, heart, diagramming and grading (Constant and Lippschutz), 326
Sphygmomanometer cuff bladder, effect of size on accuracy of measurement of indirect blood pressure (Simpson et al.), 208
Spironolactone, metabolism and mode of action in hypertension (Mendlowitz et al.), 686
Splitting, paradoxical, of second heart sound in Wolff-Parkinson-White syndrome (Zuberbuhler and Bauersfeld), 595
Staircase phenomenon and mechanical alternans in dog papillary muscle (Nayler and Robertson), 494
Starling on heart (selected papers), 578 (B. Rev.)
Stenosis, aortic, congenital, ventricular repolarization in (Fowler), 603
arterial, segmental, fallacy of applying Poiseuille equation to (Byar et al.) 216
mitral, in case of double-outlet right ventricle, with intact ventricular septum and blind left ventricle (Ainger), 521
in pregnancy, management by valvotomy (Boyle and Pantridge), 428 (Annot.)
Steroid therapy in children with nephrosis (Saxena and Crawford), 836 (Annot.)
current status in rheumatic fever (Kuttner), 147
Steroids in myocardial infarction (Semple and Dall), 716 (Annot.)
Stimuli, emotional, premature systoles associated with (Dreifus and Watanabe), 291
psychogenic, response of peripheral circulation to, methods for studying in intact man (Burch and DePasquale), 411
Stroke volume changes with exercise in constrictive pericarditis (McHenry et al.), 180
Subclavian catheterization, percutaneous, of right heart and pulmonary arteries (Gulde et al.), 481
Suicidal attempt by overdosage of ajmaline (Jornod and Barrelet), 719 (Annot.)
Surface activity of plasma, impairment related to atherogenesis and coronary heart disease, new theory (Davies), 720 (Annot.)
Surgery, aortic valve, and autoimmune hemolytic anemia (Pirofsky), 426 (Annot.)
cardiovascular, 1964, 434 (B.Rev.)
under general anesthesia, effects on ischemic electrocardiogram (Chamberlain and Edmonds-Seal), 834 (Annot.)
Suture of thoracic aorta, clinical and experimental study of complications after, 579 (B. Rev.)
SVEC-III lead system, experimental comparison of parallel grid leads with, and simple bipolar, Frank, and McFee-Parungao systems. II. Transverse and vertical leads (Fischmann), 627
Synchronization of atria and ventricles during electrical pacing (Ettinger), 110
Syncope, role of carotid sinus reflexes in production (Tuckman et al.), 129
Synthesis of catecholamines in hypertension (Mendlowitz et al.), 678
Systemic emboli, multiple, myxoma of left atrium with (Goodwin et al.), 239 (CPC)
Systole, ventricular, cardiac impulse during, cardiographic, angiocardiographic, and anatomic studies (Mounsey), 279 (Annot.)
Systoles, premature, associated with tension and drugs (Dreifus and Watanabe), 291
Systolic clicks and late systolic murmur, intracardiac phonocardiographic evidence of mitral valve origin (Ronan et al.), 319
pressure, relationship to pulse pressure and diastolic pressure in healthy subjects, 20-94 years of age (Master and Lasser), 163

T

T waves, hyperkalemic, unusually tall and narrow U waves simulating, in cases of hypochloremic alkalosis with hypokalemia (Sarma), 397
Tachycardia, atrial, double, digitalis-induced, unusual form (Chung and Thomas), 394
ventricular, in presence of left bundle branch block (Scott), 816
Teaching cardiology (Pruitt), 581
Tension, drugs, and premature systoles (Dreifus and Watanabe), 291
Testing, clinical, of new drugs, 433 (B.Rev.)
Thiazide diuretics, metabolism and mode of action in hypertension (Mendlowitz et al.), 685
prophylactic use of potassium with (Reynolds), 2
Thioridazine, electrocardiographic changes induced by (Ban and St. Jean), 575 (Annot.)
Thoracic aorta, suture of, clinical and experimental study of complications after, 579 (B. Rev.)
Thromboembolism, occurrence in women taking oral contraceptives (Zilkha), 280 (Annot.)
Thrombus, atrial, left, detection by cineangiocardiography (Lewis et al.), 612
Thyroid hormone, premature systoles associated with (Dreifus and Watanabe), 293
Tissue culture of contracting chicken embryo heart cells, effect of viruses and other agents on (Pankey and Mogabgab), 94
metabolism in hypertension (Mendlowitz et al.), 679
transplantation (British Medical Bulletin, Vol. 21, No. 2, May, 1965), 578 (B.Rev.)
Toxicity, digitalis (Dall), 572 (Annot.)

Toxicity, digitalis—Cont'd
unusual form of double atrial tachycardia due to (Chung and Thomas), 394
potassium (Reynolds), 3
quinidine, manifestations and treatment (Lyon and DeGraff), 139
Transformation between vectorcardiographic systems (Horan et al.), 365
Transient left bundle branch block, mechanisms of production and elimination (Scott), 820
Transplantation of tissues and ... ...ns (British Medical Bulletin, Vol. 21, No. 2, May, 1965), 578 (B.Rev.)
Transposition of great vessels, corrected, without associated defects (Rotem and Hultgren), 305
Transvenous intracardiac pacing, simple bedside method for (Kimball and Killip), 35
Triamterene, effect on elevated arterial pressure, comparison with chlorthalidone (Cranston et al.), 455
Tricuspid valve, hypoplasia (Raghib et al.), 806 (CPC)
Trifluoperazine, electrocardiographic changes induced by (Ban and St. Jean), 575 (Annot.)
Two-step test, Master, physiologic fallacy of adjusting for body weight in performance of (Rowell et al.), 461

U

U waves, unusually tall and narrow, simulating hyperkalemic T waves in cases of hypochloremic alkalosis with hypokalemia (Sarma), 397
Uhl's anomaly; congenital aplasia of myocardium of right ventricle (Cumming et al.), 671
Ultralow-frequency ballistocardiogram in atrial septal defect; semiquantitative approach based on analysis of velocity curve (Elsbach and Rodrigo), 136

V

Valve, aortic, surgery and autoimmune hemolytic anemia (Pirofsky), 426 (Annot.)
mitral, origin of systolic clicks and late systolic murmur in, intracardiac phonocardiographic evidence of (Ronan et al.), 319
tricuspid, hypoplasia (Raghib et al.), 806 (CPC)
Valves, cardiac, cineradiography of, 843 (B.Rev.)
Valvotomy, mitral, and pregnancy (Boyle and Pantridge), 428 (Annot.)
Vascular disease, cerebral, 578 (B.Rev.)
effects, extracoronary, of glyceryl trinitrate and pentaerythritol tetranitrate (Frohlich et al.), 657
resistance, pulmonary, effects of l-norepinephrine, angiotensin, and serotonin on (Fowler and Holmes), 66
perivascular edema as factor in (West), 570 (Annot.)
Vectorcardiogram, Frank, quantitative criteria for diagnosis of dorsal infarction using (Hoffman et al.), 295
in left bundle branch block (Scott), 549
with myocardial infarction (Scott), 707
Vectorcardiographic systems, interchangeability of (Horan et al.), 365
Vectors of septal depolarization in left bundle branch block (Scott), 546
Venous pulse, jugular, simplified method of recording (Colman), 160
responses, pulmonary, to immersion hyperthermia and hypothermia (DePasquale et al.), 486
Venous—Cont'd
segment, isolated, measurement of pressure in, method for studying influence of higher central nervous centers on peripheral circulation of intact man (Burch and DePasquale), 411
Ventricle, right, double-outlet, with intact ventricular septum, associated with mitral stenosis and blind left ventricle (Ainger), 521
hypoplasia (Raghib et al.), 806 (CPC)
myocardium of, congenital aplasia (Uhl's anomaly) (Cumming et al.), 671
Ventricular activation and ejection, sequence in left bundle branch block (Scott), 557
in left bundle branch block (Scott), 545
aneurysm, postinfarction, clinicomorphologic and electrocardiographic study (Dubnow et al.), 753
arrhythmias, hemodynamic consequences in man (Benchimol et al.), 775
and pseudoventricular, appearing after D.C. countershock, significance (Castellanos et al.), 583
contractions, premature, diagnostic of myocardial infarction in presence of left bundle branch block (Scott), 817
in presence of left bundle branch block (Scott), 813
fibrillation, reversion of, clinical problems (Paulk and Hurst), 249
gallop (third heart sound or diastolic gallop) in left bundle branch block (Scott), 557
gradient in left bundle branch block (Scott), 553
hypertrophy, left, and left bundle branch block, ECG and VCG in (Scott), 823, 824
repolarization in congenital aortic stenosis (Fowler), 603
septal defect in childhood, hemodynamics in (Kidd et al.), 732
systole, cardiac impulse during, cardiographic, angiocardiographic, and anatomic studies (Mounsey), 279 (Annot.)
tachycardia in presence of left bundle branch block (Scott), 816
Vertebral arteriovenous fistula, iatrogenic (Garland), 430 (Annot.)
Vessels, great, transposition, corrected, without associated defects (Rotem and Hultgren), 305
Vim-Silverman needle, Franklin's modification of, for percutaneous myocardial biopsy (Timmis et al.), 499
Viruses, effect on contracting chicken embryo heart cells in tissue culture (Pankey and Mogabgab), 94
Volume, stroke, changes with exercise in constrictive pericarditis (McHenry et al.), 180

W

Waves, U, unusually tall and narrow, simulating hyperkalemic T waves in cases of hypochloremic alkalosis with hypokalemia (Sarma), 397
Weight, body, adjusting for, physiologic fallacy, in performance of Master two-step test (Rowell et al.), 461
West Indian woman, Becker type cardiomyopathy in (Davies and Hollman), 225
Wolff-Parkinson-White syndrome with left bundle branch block (Scott), 825
in cattle (Van Arsdel), 146 (Annot.)
paradoxical splitting of second heart sound in (Zuberbuhler and Bauersfeld), 595
World War II, blood program in, 286 (B.Rev.)
